Predictive analytics are being utilized more and more frequently in higher education as we aim to determine ways we can better determine which students are likely to be successful on our campus. With holistic data becoming more readily available and advanced statistical techniques becoming more higher-education friendly, it's clear that innovative uses of data are not merely some passing fad. Yet, for campus stakeholders, figuring out ways to start making use of data and conducting predictive analyses can be a daunting task. In this bootcamp, we will work with live datasets together to determine

THANK

YOU!
